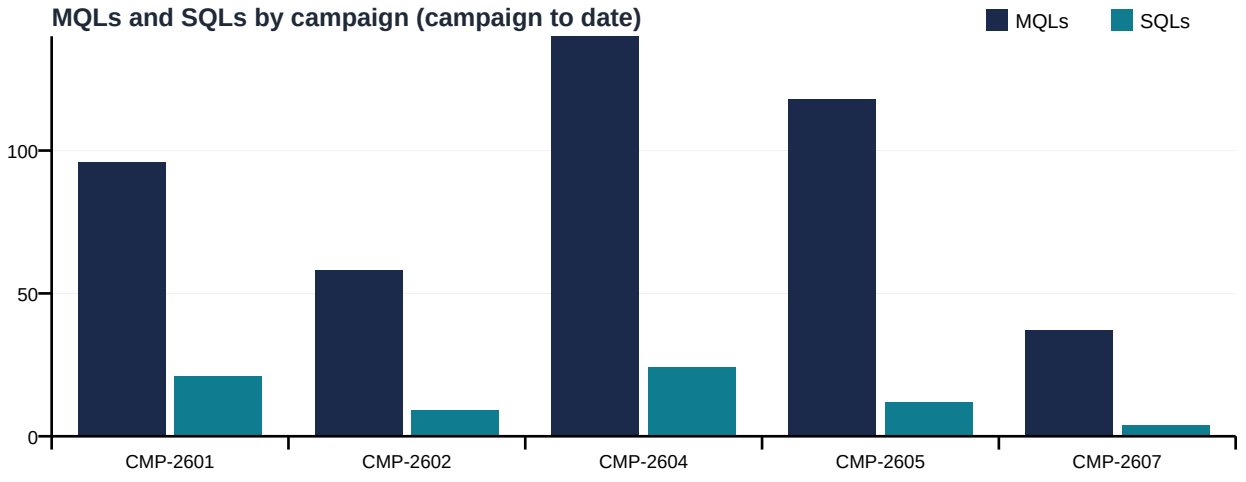
Performance by campaign

ID	Campaign	Lead channel	Spend	Reach	Engaged	Regs	MQLs	SQLs	CPL	Sourced
CMP-2601	BFSI Cloud Data Modernisation Webinar Series	Webinar	$48,500	184,000	6,920	612	96	21	$505	$2.40M
CMP-2602	Retail Unified Commerce ABM	LinkedIn ABM	$72,000	41,500	3,310	-	58	9	$1,241	$2.60M
CMP-2604	Azure Migration Assessment Offer	Paid search	$56,000	312,000	9,840	388	140	24	$400	$1.82M
CMP-2605	Insurance Claims Automation eBook	Content syndication	$22,000	96,000	4,120	1,180	118	12	$186	$780,000
CMP-2607	GenAI Copilot Accelerator Launch	Email nurture	$30,000	58,000	2,870	214	37	4	$811	$0



What worked

- The BFSI webinar series (CMP-2601) converted MQL to SQL at 22%, against 16% for non-BFSI campaigns, and sourced the Meridian Bank opportunity ($2.4M, OPP-24220).
- The claims automation eBook (CMP-2605) produced the lowest cost per lead and sourced Litware Insurance (OPP-24150). It also reached Calder Insurance three weeks before Calder's RFP arrived.
- Retail ABM (CMP-2602) sourced Adventure Works' unified commerce opportunity ($2.6M) from 58 MQLs.

What did not

- The Smart Factory Summit sponsorship (CMP-2606) cost $64,000, overspent by $4,000 and sourced nothing; it influenced the Contoso bid that we lost on price.
- Q4 thought-leadership (CMP-2608) has spent $4,200 of $45,000; engagement is below benchmark at 2.5%.
- No-show rate on SDR meetings was 14% in September (target under 12%); Calder's VP Claims Technology no-showed on 15 Sep.

Recommendations for Q4

- Move $25,000 from CMP-2608 brand awareness to a fourth BFSI webinar on Guidewire and claims data.
- Run a Northwind-specific retention play with the account team instead of ABM ads: intent data shows Northwind researching 'managed services RFP' since week 38.
- Re-target Calder Insurance contacts with Guidewire content during the RFP evaluation (Nov-Dec).
